

## PHD position announcement

Professor Mahdiah Allahviranloo, <http://mahdiehallahvrianloo.ccny.cuny.edu/> , is seeking applicants for PhD position starting in Fall 217, in Transportation Program, at the City College of New York.

Areas of interest include, but are not limited to, optimization, network modelling, pattern recognition and data mining. Students with background in Civil Engineering, Statistics, Industrial Engineer, and Computer science are welcome to apply. We offer full support for tuition for the period of 5 years and stipend for at least 2.5 years at the rate of \$30,000/year. Stipend beyond 2.5 years will depend on the performance of the PhD student.

The City College of New York, located in Manhattan, NY, is a public senior college of the City University of New York. New York City itself is indeed the most exciting city in the world and living here is a unique experience. With the largest transit system in the nation, it offers many job opportunities to transportation specialists after graduation.

Interested applicants can contact me at [mallahivranloo@ccny.cuny.edu](mailto:mallahivranloo@ccny.cuny.edu), to discuss this opportunity and please don't forget to enclose your cv.

Best,

Mahdiah Allahviranloo, PhD

Assistant Professor  
Department of Civil Engineering  
The City College of New York

Steinman Hall, Room 134  
160 Convent Ave, New York, NY,10031
