

# The Project

## Duration

36 months (May 2019 – April 2022)

## Objective

A project that aims to prepare

- “drivers”
- travelers and
- vehicle operators

of the future to accept and use connected, cooperative and automated transport modes

and the industry of these technologies to understand and meet their needs and wants

## Pilots

- Development of **3** pilot phases
- All transportation modes (Road, Maritime, Aviation)
- Interaction with **non equipped vehicles**
- Interaction with **vulnerable road users**
- **Different levels of automation**
- **Assessment** of AV's behavior and experience of the users and the participants

## Impact

Improvement of safety levels

Raise user acceptance towards automated driving

Increase user awareness through participation in the pilots

Development of the first AV behavioral model

Creation of a simulation suite
