Supporting activities for ETIS-Link project in respect to training and dissemination issues related to the software tool of ETIS-Agent

Scientific Responsible
Lecturer **Athanasios Ballis**

The aim of the project is to support the ETIS-LINK research program training activities (i.e. production and organization of educational material, training and coordination of the group of trainees/ researchers, drafting of a training seminar evaluation report, etc.) in respect to the familiarisation with the software developed in the context of the ETIS-AGENT research program"
