## GIFT - Implementation actions of TRAINOSE SA

Scientific Responsible
Associate Professor **Athanasios Ballis** 

The main scope of the project of the Laboratory of the Laboratory of Rail and Transport is to support TRAINOSE S.A. in the fulfillment of tasks stemming from the European research programme "GIFT-Green Intermodal Freight Transport". These tasks include (a) the description the existing conditions of the freight transport network of the Pan European Corridors IV, V and VII that serve South-East Europe (b) the suggestion of policies and strategies that will promote green intermodal freight transport corridors in the area and (c) the development of tools that will evaluate the effectiveness of the proposed solutions.
