Road safety audit of the prefinal and detailed design of the primary road network of the project: upgrading of eastern inner Thessaloniki ring road

Scientific Responsible
Associate Professor **Stergios Mavromatis**

The project concerns the road safety audit of the prefinal and detailed road design of the main road network of the Upgrading of Eastern Inner Thessaloniki Ring Road with PPP project. The project will draw up a report with the aim of identifying areas that may raise safety concerns. These areas, if any, based on the severity of road safety deterioration, will be classified as follows:

- great burden
- moderate burden
- small burden

In addition, recommendations on any corrective interventions needed will be developed to assist both the project management body and the researchers in understanding the importance of this audit.
